

Centuran Consulting  
ul. Górczewska 156 lok. 32  
01-460 Warszawa

REFERENCE LETTER

The **Centuran Consulting** experts worked with our company on the deployment of a new helpdesk system software version for a leading finance and insurance company. They were responsible for defining and performing the deployment and data migration process, and for designing and implementing additional system features. All works were carried out in continuous coordination with the client.

The **Centuran Consulting** team completed these tasks to a professional standard and in a timely manner, and kept us updated on the progress at all times. Its consultants also made sure that the deployment of the new version did not interfere with the everyday business operations of the client.

We recommend **Centuran Consulting** as top-class experts in **OTRS** deployment. Centuran Consulting has proven itself as a reliable partner whose services we will certainly use for other projects in this field.

Z poważaniem / With regards

Grzegorz Bról
